Fish News:

Study Of Port Jackson Shark Reveals Individual Personalities:

For the first time a study led by researchers at Macquarie University has observed the presence of individual personality differences in Port Jackson sharks.

A team of researchers from Macquarie's Department of Biological Sciences observed the behaviour of sharks from the east coast of Australia and found that individual sharks had distinct and consistent responses when exposed to an unfamiliar environment and stress.

Video Of The Month:

Elderly sheepshead wrasse has 25+ year friendship with Japanese diver.

For 25 years, an Asian sheepshead wrasse living off the coast of Japan has been greeting diver Hiroyuki Arakawa whenever he goes to tend an underwater Shinto shrine near Tateyama in Chiba prefecture. Arakawa uses a mallet to strike the shrine like a bell to tell Yoriko that he is visiting him. ([To watch video, click here or on image](#))
